## 1.0 Introduction

A drug is a chemical substance which brings about a change in a person's emotional state, body functioning, or behaviour. This definition includes many substances which might not immediately be considered as drugs, such as solvents, alcohol, tobacco and caffeine.

The findings of surveys undertaken across Wales and locally indicate that substance misuse is a major threat to individuals, families and the wider community. One of the most worrying features identified by surveys is that substance misuse appears to be progressively affecting a younger population.

This policy has been informed by partnership working with the Local Authority, Police and Healthy Schools and is intended to assist our school/setting to:

- Respond to any incidents of substance misuse which may occur on school/setting premises;
- Respond to any safeguarding issues associated with either the child's\* substance misuse or someone else'

\*child/children refer to all children and young people

This policy has been developed in the context of Substance Misuse Delivery Plan 2019-2022 *"Improving Lives for People and Communities Affected By Substance Misuse"*, published in 2019. *The Welsh Government's Substance Misuse Delivery Plan 2019-2022 aims to set out clear priorities for tackling and reducing the harm associated with substance misuse in Wales.*

### [Substance Misuse Delivery Plan 2019-22](#)

This policy also alerts the reader to the substances and issues causing concern locally in Monmouthshire. The Strategy sets out an approach to tackling and covers the full range of substances that are misused:

- Tobacco including alternative methods such as e-cigarettes and vaping pens
- Alcohol
- Illegal drugs such as heroin, cocaine, MDMA/ecstasy, amphetamines, LSD and cannabis
- New Psychoactive Substances such as smoke-able herbal based mixes (Spice) and powders (Xanax/ Alprazolam)
- Prescription only medicines (POM) such as Opiate based medication (Codeine/Tramadol), Benzodiazepines (Diazepam/Valium), anti-anxiety medication (Xanax/Alprazolam), ADHD medication (Ritalin) and Anti-Epileptic medication (Gabapentin/Pregabalin)
- Over the counter medicines (OTC) such as codeine based preparations (Solpadine), Cold and Flu medications (Night Nurse), Sedative Antihistamines (Nytol) and Decongestants (Pseudoephedrine)
- Volatile substances such as aerosol propellants, butane, solvents, glues and nitrous oxide

This document should be read in conjunction with the school's/setting's other policies and has particular links with those related to safeguarding and behaviour.

Sources of information and support relating to substance misuse are provided in **Appendix 1**.

Our school/setting has a responsibility to educate pupils, so that their actions are based on knowledge and accurate information, and to enable them to have control over their lifestyle. This policy has fully considered the Welsh Government Circular 107/2013 [Guidance for Substance Misuse Education](#) published in July 2013.

The most popular terminology for New Psychoactive Substances is 'legal highs'. However, the latter phrase can serve to reinforce the perception of a less harmful or safe substance. In this respect, this school/setting makes reference to New Psychoactive Substances. Under no circumstances will they be referred to as 'legal highs'.

In line with Welsh Government Legislation the entirety of our school/setting site is smoke free. Smoking is prohibited for all \*children, staff, visitors, and contractors on site. If our school /setting becomes increasingly concerned with smoking on site, then we will contact our LA Enforcement Team to discuss further actions. **Appendix 4** provides schools with guidance on ensuring compliance is met.

Making places smoke-free, where children and young people gather regularly, will help to protect them from second-hand smoke. It will also help to denormalise smoking and discourage children and young people from taking up smoking themselves. Sanctions and consequences will follow in line with the school's/setting's behaviour management policy, disciplinary procedures, and other relevant protocols.

In addition, to help denormalise smoking and promote a healthy living environment, the school bans the use of any e-cigarettes and vaping pens on school premises.

Children, staff and governors/management committee members require on-going education, so that they are able to recognise the signs of substance related activity and are able to take appropriate action. Everyone in our school/setting is aware of the correct procedures to be followed.

Parents/carers are fully involved in the delivery of the responses to incidents and have an awareness of the education programmes their children will experience within our school/setting. Parents/carers are partners of the school/setting and will be included from the outset in anything that affects their child.

This policy will be available on the schools/settings home website for all staff, governors, parents, pupils, visitors, and contractors to access. *For those who do not have access, Headteachers must ensure copies of the policy can be accessed through other means.*

## 2.0 Principles

This policy emphasises the school's/setting's pastoral role and proactive approach to substance misuse and its responsibility to provide appropriate education to enable children to make positive, safe choices. Where possible the school/setting will work alongside key partners to provide additional pastoral support for pupils who require further intervention work. Aiming to support and tackle the pupil(s) individual substance use and misuse concerns.

The Policy also presents a clear view on handling any substance misuse issue that may arise within the school/setting. In developing this policy, the school/setting has considered its legal

responsibility, the needs of pupils, parents/carers, staff, governors/management committee members, and the local community.

The most effective resource in Substance Misuse Education to any school/setting is the pupils. They are more likely to have an influence upon their peers than parents/carers or staff. We are seeking to create a climate in our school/setting where pupils look out for other pupils' welfare. Pupils are encouraged to be open and will receive information and guidance through pastoral programmes to facilitate their learning and self-protection skills.

Substance misuse may be more prevalent amongst specific groups of children, from particular demographics. However, this policy will ensure that whilst consideration must be given to individual circumstances, a consistent approach will be upheld in terms of detection and support of issues by school/setting staff. In this respect, the whole school/setting will be consistent in the principles underpinning this policy and flexible with practice in order to take account of individual circumstances.

The school/setting works in association with the Local Authority and South East Wales Safeguarding Children Board to organise and facilitate training for pastoral staff, relevant non-teaching staff and governors.

## Application of Policy

The school/setting policy of substance misuse should apply:

- On school/setting premises;
- Whilst pupils are travelling to and from school/setting;
- During off-site visits/trips.

## 3.0 Teaching and Learning

**Shirenewton Primary School** takes the issue of substance misuse (including New Psychoactive Substances) seriously and seeks to give quality education on substance misuse to all pupils. The aim is to empower children to make responsible, well informed decisions about substances and, whenever possible, to resist the temptation to use them. This includes smoking cigarettes (including the use of e-cigarettes and vape pens) and drinking alcohol. This school /setting seeks to provide accurate, unbiased information about substances to its pupils, taught through a life skills approach as an essential component of a broader programme linked to the Foundation Phase, Personal and Social Education (PSE), National Curriculum Science and the Health and Well-being Area of Learning Experience (AoLE) in the New Curriculum for Wales. Effective Substance Misuse Education is fundamental to developing **healthy, confident individuals, ready to lead fulfilling lives as valued members of society**. By developing learners' motivation, resilience, empathy, and decision-making abilities, they can be supported to become **ambitious, capable learners, ready to learn throughout their lives**.

The delivery of Substance Misuse Education within the school supports the United Nations Convention on the Rights of the Child (UNCRC), protecting all children and young people aged 0-17 years with their human rights;

Article 6: You have the right to life and grow up to be healthy.

Article 19: You should not be harmed and should be looked after and kept safe.

Article 33: You should be protected from dangerous drugs.

## Curriculum

As our school designs our New Curriculum for Wales provision, Substance Misuse Education will be taught through the Health and Well-Being AoLE. Our aim is to develop and support children to become healthy, confident individuals, ready to lead fulfilling lives as valued members of society who **know how to find the information and support to keep safe and well** and who are able to **take measured decisions about lifestyle and manage risk**.

## Primary School Setting

The aim of Substance Misuse Education is:

- For pupils to develop the knowledge, skills and attitudes to appreciate the benefits of a healthy lifestyle, promote responsibility towards the use of legal and illegal substances and relate these to their own actions, both now and in their future lives.

Learners at Foundation Phase will be given opportunities to:

- Develop an understanding about dangers in the home and outside environment.
- Understand that medicines are taken to make them feel better and that some drugs are dangerous.

Learners at KS2 will be given opportunities to:

- Take increasing responsibility for keeping the mind and body safe and healthy.
- Feel positive about themselves and be sensitive towards the feelings of others.
- Understand the harmful effects, both to themselves and others, of tobacco, alcohol, and other legal and illegal substances.

## The organisation of the Substance Misuse Education curriculum

Our named Health and Well-Being Lead is Mrs C Whyte and they are responsible for planning and evaluating the Substance Misuse Education curriculum throughout the school. In our school we deliver Substance Misuse Education through planned lessons, as well as through co-ordinated cross-curricular teaching.

The school uses the [Healthy Schools Substance Misuse Toolkit](#) to teach about substances.

An overview can be found below:

**Reception:** Keeping Healthy, Feeling Poorly, Hygiene, Safety, Don't touch, don't taste, ask first, People who help us and Working with parents.

**Years 1 and 2:** Being Healthy – Your body, Safe Medicines, Medicines and Safety, Hazardous substances, Communication and Resisting peer group pressure.

**Year 3:** Healthy Choices, Safe Medicines/Tobacco, Tobacco and Passive Smoking, Fresh Start Wales and Risks.

**Year 4:** Healthy or Harmful, Risky behaviours, Knowing about tobacco, Ready Steady Cook, Communication and Staying Smoke Free.

**Year 5:** The Tobacco Industry – What effect does it have upon our world? Tobacco – Passive smoking, Resisting Peer Pressure, Alcohol, Effects and Risks, Summing up - Keeping safe and What strategies can we use?

**Year 6:** Alcohol, Media and Alcohol, Choices, Legal/Illegal substances, Volatile Substances, Volatile substances - getting help and Legal perspectives.

We welcome the involvement of visitors from external agencies to complement the core delivery by teaching staff. Our school is fully committed to delivering the All Wales School Liaison Core Programme in its entirety throughout the academic year.

An overview can be found below:

**Year 1:** People who help us

**Year 2:** Who? What? Where? Take care, Right or Wrong?

**Year 3:** Sticks and Stones

**Year 4:** Sinister Substances

**Year 6:** It's Your Choice and So What's the Problem?

The full overview and delivery can be found at [SchoolBeat.cymru](https://schoolbeat.cymru)

<https://schoolbeat.cymru/uploads/media/2021-22-Lesson-Matrix-SchoolBeat.pdf>

All visitors are supported in the classroom by a teacher and are informed about the school's Substance Misuse Education policy and scheme of work.

## **Resources used to complement the Substance Misuse Education delivery**

In addition to the above, the school utilises the following resources to deliver specific sessions as stated above:

- Tacade "[Keys to Smoking](#)" and "Keys to Alcohol" for children aged 7 – 11 years old
- Welsh Government 'Fresh Start Wales' lesson plan pack
- All Wales School Liaison Core [Programme](#)
- [SENSE](#) DVD
- [Growing Up](#) Resource

## **4.0 Involving Outside Agencies**

Substance misuse programmes are tailored to meet the needs of all learners including those in vulnerable groups such as looked after children or children who have started to misuse substances. When necessary/appropriate, an individual plan is developed in order to meet the needs of particular children. In this respect, this school/setting seeks to support any pupil who has substance related problems through its robust pastoral system and good working relationships with outside agencies.

When outside agencies provide sessional learning opportunities for pupils, the school/setting will ensure that:

- The school/setting and the external provider have agreed the aims, content and approach to be adopted.
- The school/setting has checked that the work of the agency is known to them and is considered appropriate, in respect of safeguarding /child protection procedures.

- The school/setting has made the provider aware of any relevant school/setting policies.
- The school/setting has planned for the provider to be actively supported by a teacher at all times throughout the visit.

## 5.0 Responding to Incidents and Suspicions Regarding Substances

All staff must be prepared for incidents of substance related activity among our pupils not only in their social life outside school/setting, but within the school/setting itself. Perpetrators target children of school age as a vulnerable market, so we need to be vigilant on our pupil's behalf, taking into consideration that pupils are possibly being exploited and groomed to be drug mules.

It is important that everyone in the school/setting, staff, governors/management committee members, pupils and non-teaching staff know what the Substance Misuse Education policy is, what to do and particularly and who to go to when incidents occur.

The staff designated to handle such situations are: Mr N Penn (Headteacher) or Mrs S Burbidge (Deputy Headteacher)

The Designate member(s) of staff will maintain a close liaison with the PSE / Health and Well-Being Co-ordinator to ensure that the educational programme retains its relevance to current issues within the locality. This will provide a curriculum that meets the needs of learners and the local community, providing topical structured debate that will further empower pupils to make appropriate choices. Additionally, the designate will maintain up to date knowledge of the school liaison core programme and plan where appropriate within the school substance misuse curriculum.

Immediate action is needed when there is a clear risk to safety. For example:

1. An adult collecting a child or young person appears to be under the influence of drink or drugs.  
Action: apply locally agreed child protection procedures, involve the Police if an adult is aggressive.
2. Substances are being supplied/easily accessed on or near school.  
Action: contact Police.
3. A child/young person discloses that they are misusing drugs, or their parents or other family members are misusing drugs.  
Action: contact social services or Gwent N-gage for specialist advice on how to respond.

Guidance regarding the action to take if a member of staff encounters an incident of substance activity in school/setting is provided in **Appendix 2**. This includes advice in relation to the handling of any substances. This guidance is laminated and displayed in appropriate areas around this school/setting.

When a member of staff has reasonable cause to believe that a pupil is carrying or concealing illegal substances, even if there is no allegation of misuse on school/setting premises, a challenge will be made to the pupil. The pupil and their belongings will be moved to an appropriate area of the school/setting that ensures supervision by staff but privacy from other pupils. A senior member of staff will be called to gather relevant information from the child in the presence of another member of staff, and ensure any substances found are properly secured. The pupil will be asked to provide an explanation of the concern and asked to display

their belongings for school/setting staff to check. If the pupil is not willing to comply with this request, the pupil should remain in the appropriate area whilst the Police and parents/carers are contacted.

## Sanctions and Support

Exclusions:

This school/setting complies with the following guidance taken from the Welsh Government Circular 255/2019, [Exclusions from Schools and Pupil Referral Units](#):

*In making a decision on whether or not to exclude for a drug-related offence the headteacher should have regard to the school's published policy on substance misuse and should consult the appropriately trained members of school staff. The decision, however, will also depend on the precise circumstances of the case and the evidence available. In some cases fixed-term exclusion may be more appropriate than permanent exclusion. In more serious cases, an assessment of the incident should be made against criteria set out in the school's policy. This should be a key factor in determining whether permanent exclusion is an appropriate course of action.*

In the light of the above guidance, exclusion is not an automatic response to substance misuse issues within our school/setting, we are very aware that the differing personal circumstances of pupils must be taken into account when considering appropriate sanctions and safety measures. The school will endeavour to provide the learner and their family with support for the underlying issues relating to the substance use.

### Smoke-Free Legislation:

On March 1<sup>st</sup> 2021, the new Welsh Government Smoke-Free Legislation came into force. This includes schools, pre-school and childminding settings, playgrounds, and hospitals. It is now against the law to smoke anywhere in the grounds of these settings. Anyone found smoking in a smoke-free area could be issued with a £100 fine. Additionally, a site manager can be fined £200 (discounted to £150) for failing to display a sign and if found guilty they could be fined £2,500 for failing to prevent smoking on their premises. Breaches of the legislation by employees may result in disciplinary action being taken (as noted within CCBC No Smoking Policy).

**Appendix 4** provides steps for all schools/settings to ensure they are fully compliant with the new law. A full overview of the Welsh Government Legislation can be accessed on the Smoke-Free Environments [Homepage](#).

## Communication

All incidents of substance misuse are reported by class teachers to the Designated Senior Person for Child Protection - Headteacher. All school staff understand the issues relating to confidentiality. Pupils need to be confident that their rights will be respected, but also that the paramount factor in the guarantee of confidentiality will always be the pupil's safety. Staff receive appropriate guidance on issues of confidentiality. This school promotes a culture whereby pupils are aware that they are able to approach any member of staff with a problem

and be secure in the knowledge that in making themselves vulnerable, their trust will not be abused. Parents/carers are aware of the policy the school/setting will follow in substance related incidents. In this respect, a leaflet for parents/carers and children, is provided in **Appendix 5**. This is designed to clarify the school's/setting's responses and responsibilities when dealing with issues of substance misuse. This school provides this leaflet to parents at the start of their children's learning journey with this school/setting.

## **Dealing with the Media**

Substance use and misuse incidents can potentially receive a high level of media attention.

If the school/setting receives enquiries from any media source, the Headteacher will direct the journalist or reporter to;

Monmouthshire County Council  
Communications Team

Telephone: 01633 644644 Email: [communications@monmouthshire.gov.uk](mailto:communications@monmouthshire.gov.uk)

Under no circumstances will the names of individuals be released to the media.

## **Equality Statement**

This school/setting recognises that people have different needs, requirements and goals and we will work actively against all forms of discrimination by promoting good relations and mutual respect within our community and between pupils, parents, staff, governors/management committee members and partners.

We will also work to create equal access to support, for everyone, irrespective of ethnic origin, sex, age, marital status, sexual orientation, disability, gender reassignment, religious beliefs or non-belief, use of Welsh, BSL or any other language, nationality, responsibility for any dependents or any other reason which cannot be shown to be justified.

## **Monitoring the Policy**

All staff should be given the time to fully read through and understand, ensuring the policy is fully implemented across school/setting. Plus allowing them the opportunity to provide any recommendations, before being submitted to Governors for approval.

The Headteacher ensures that written records are maintained of any incidents. Regular reports will be shared with the Child Protection link Governor/Management Committee Member.

Effective monitoring of the Policy will ensure that observations of the Substance Misuse Education lessons have taken place and that any input via external providers is appropriately evaluated. The Headteacher is responsible for the oversight of the completion of this process.

Policy Approved by.....Chair of Governors/Management  
Committee

Policy Implemented by .....Headteacher

Date of Implementation.....

Date of Review.....

This Policy will be reviewed every 3 years and updated or in light of any changes in legislation.

## Appendix 2 – Staff guide to be displayed in public areas of the school/setting

Mr N Penn (Headteacher) will make contact with relevant outside agencies to initiate appropriate action when necessary. However, the effectiveness of class teachers who have a rapport with their pupils cannot be over emphasised. They are invaluable both in acting as 'early warning systems' in identifying substance use and misuse amongst pupils, and in providing a sympathetic ear to pupils who might be diffident in seeking help for themselves or their friends. The following guidance should be viewed within this context.

1. Assess whether there is a medical emergency. If there is a medical emergency, call an ambulance immediately. If a pupil is hallucinating, Do Not Challenge his/her statement or perceptions. This could be dangerous. Try to remove the pupil to a quiet, non-threatening environment.
2. Contact the Designated Senior Person for Child Protection or the Headteacher without delay. They will make an early decision to inform the parents/carers. It is always advisable, when the initial emergency is over, to contact parents/carers for information and consultation.
3. If any substance is willingly surrendered, seize and retain the substance concerned and transfer it to the Designated Senior Person for Child Protection or Headteacher. If it is believed substances are present but pupils will not agree to surrender possessions, the pupil should be isolated while the Police are called. During the isolation of a pupil more than one adult should be present.
4. Any substances recovered must be held in a secure location until Police can advise further.
5. Complete a Substance Misuse Recording Form and ensure it is passed immediately to the Designated Senior Person for Child Protection or Headteacher.
6. Make an early decision on which other agencies also need to be informed or involved. For example, Educational Welfare Officer, Social Services, Police and Educational Psychologist.
7. Consult with the School Community Police Officer regarding legal implications of the situation. A request should also be made that Police collect the secured suspicious substances the same working day.
8. Decide if the situation warrants informing the general/particular pupil population.
9. Liaise with other agencies involved regarding longer-term pupil counselling, family involvement and service availability.
10. Consider if review of school/setting policy or curriculum provision is required as a result of the incident.

### Handling of Substances

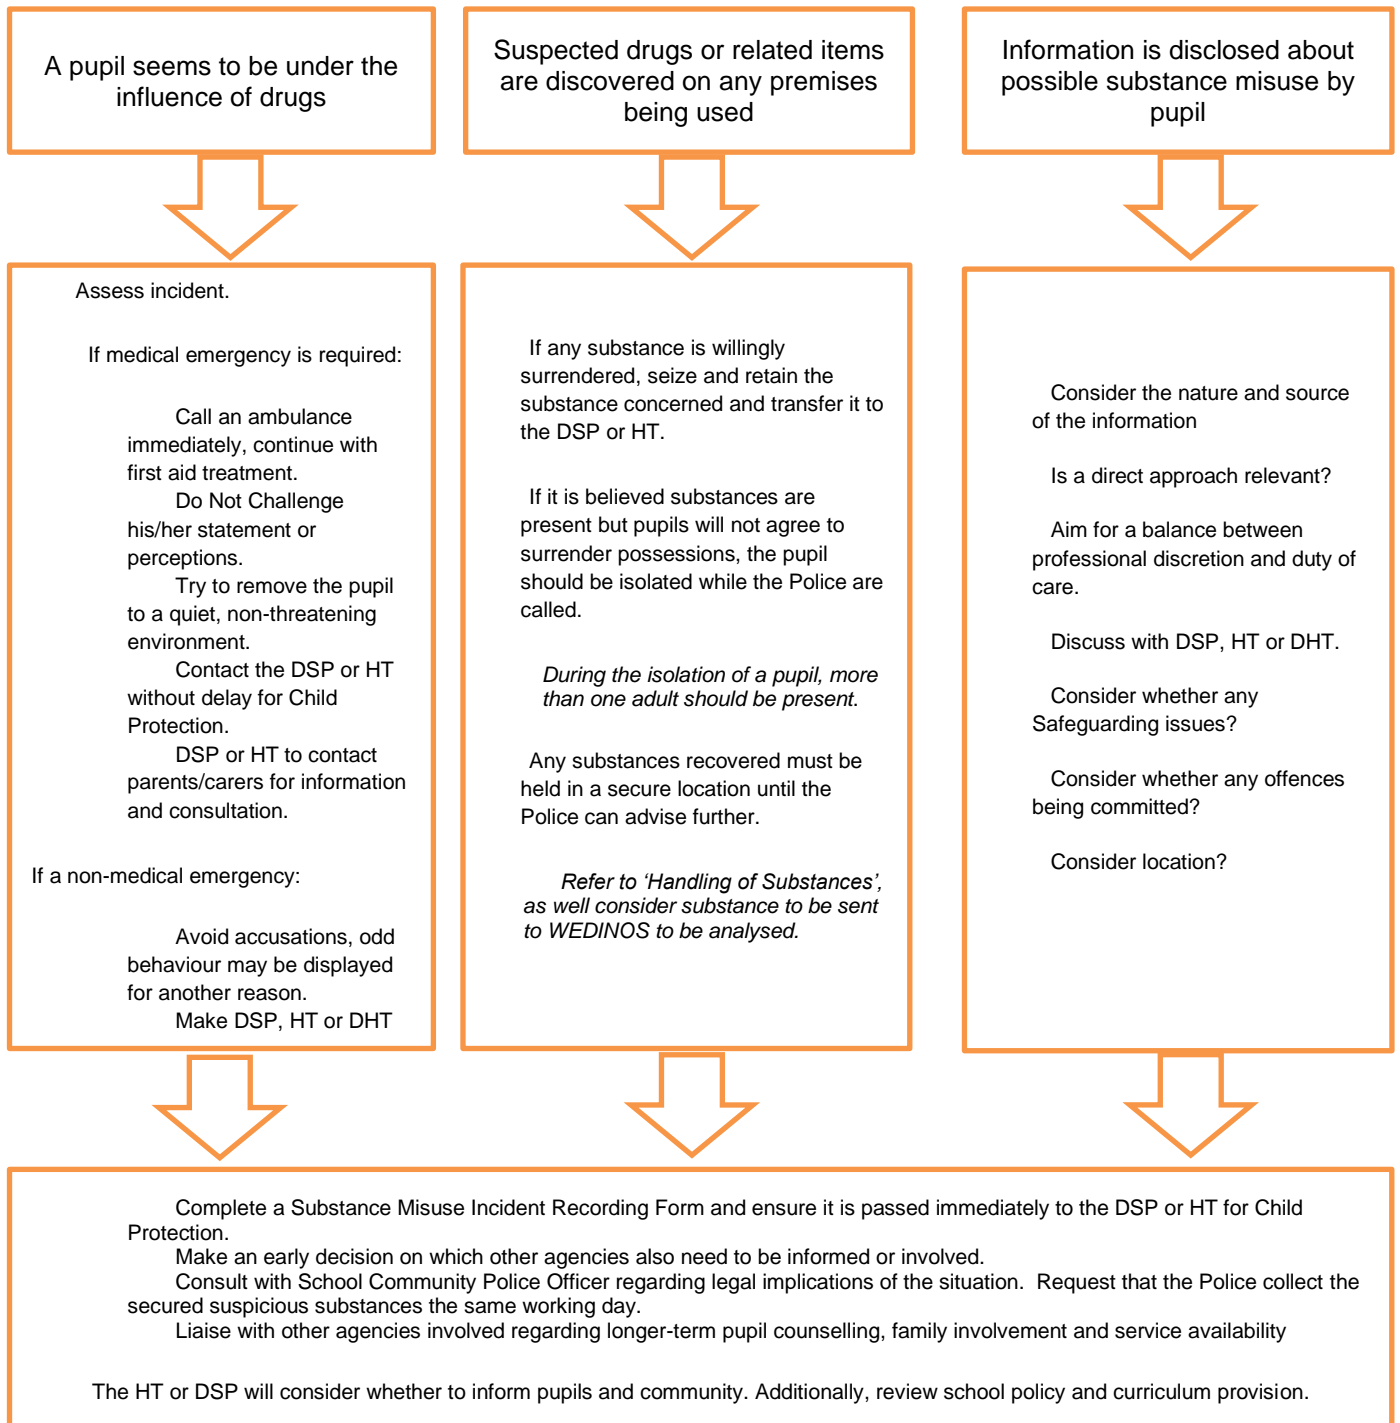

Care should be taken when handling any substance suspected of being a drug. If possible, disposable gloves should be worn. These are kept with first aid kit located in the creative areas. If these are not available, care should be taken to wash hands immediately after handling.

Needles and syringes which may be found on school premises should be handled with great care to avoid needle-stick injuries. In the first instance the Headteacher and site manager are responsible for ensuring the site is made safe.

**In the event of a needle stick injury to any party, urgent medical advice should be sought.**

## Responding to Substance Misuse Related Incidents

### What to do when:

### Handling of Substances

1. If possible, disposable gloves should be worn. These are kept within the first aid kit. If these are not available, care should be taken to wash hands immediately after handling.
2. All needles and syringes found on school/setting premises should be handled with great care and safely removed to a sealable sharps disposal box. In the first instance the Head teacher and site manager are responsible for ensuring the site is made safe.

The first aid kit is located in the creative areas.

**In the event of a needle stick injury to any party, urgent medical advice should be sought by contacting 101.**

**Please refer to Appendix 2 within the School's Substance Misuse Policy for a full overview**

## Appendix 3 – Substance Misuse Incident Recording

## Appendix 4 – Steps for Headteachers to take in ensuring compliance with the new smoke free legislation

1. Display signs at the entrances and exits to your premises.

*A site manager can be fined £200 (discounted to £150) for failing to display a sign. Additionally, if found guilty they could be fined a further £2,500 for failing to prevent smoking on their premises.*

2. Display posters and window stickers inside the building's entrances and in reception.
3. Distribute information about the new legislation to staff and parents and additional people using the grounds, such as contractors.
4. Act if someone ignores the smoking ban.

### ***Actions to consider if someone ignores the smoking ban:***

1. ***Approach the person and draw attention to the 'No Smoking' signs*** (if the person is smoking in a place where a sign is required). *Politely ask them to stop smoking.*
2. ***Advise the person that it is an offence for you*** (as owner, manager etc.) *to let anyone smoke. You should also advise them that they too are committing an offence by smoking in a smoke-free area.*
3. ***If the person smoking is an employee and continues to smoke:***
  - a. *explain that the purpose of the smoke-free legislation is to ensure that there is a safe environment for all, free from the harms of second-hand smoke*
  - b. *if required, implement your disciplinary procedure for non-compliance with your workplace's smoke-free policy*
4. ***If the person smoking is a client, visitor etc. and continues to smoke:***
  - a. *ask them to leave the smoke-free premises (and, where relevant, inform them where they can smoke)*
  - b. *if they refuse to leave, implement the normal procedure for antisocial / illegal behaviour in the premises*
5. ***Maintain a record of all such incidents and outcomes.***
6. ***In all cases where physical violence or intimidation is threatened or encountered, seek the assistance of the police.***

Monmouthshire County Council Environmental Health Team: **01291 645711**

## Appendix 5 – Information for Parents/ Carers

This school/setting has a responsibility to educate our pupils so that their actions are based on knowledge and accurate information, to enable them to have control over their lifestyles.

Our Substance Misuse policy has been developed using Welsh Government's 10 Year Strategy "Working together to reduce harm". The strategy covers:

Alcohol

Tobacco including e-cigarettes & vaping pens

Illegal Drugs – such as heroin, cocaine, MDMA/ ecstasy, amphetamines, LSD and cannabis.

New Psychoactive Substances

Prescription only medications – such as tranquilizers

Over the counter medicines – such as preparations containing codeine.

Volatile substances – such as aerosol propellants, butane, solvents, glues and nitrous oxide.

Parents/carers and pupils should be aware that they are able to approach any member of staff and safely confide a substance misuse concern. The school will seek to provide support and information, and will ensure confidentially provided there are no Safeguarding concerns to any child. Further information and support is available from:

## Substance Misuse Information for Parents/Carers

At our school/setting we value our children and their futures. With this in mind we have designed all our policies to keep our pupils as safe as possible.

As a parent/carer of our pupils, you have a vital role to play. This school/setting is part of your community and you are very important in helping us keep pupils safe. This leaflet will hopefully explain our procedures and your role within them.

Substance Misuse is a problem within society and schools/setting are not excluded from this. We are very aware that concerns do not just relate to illegal substances. We must maintain vigilance and an open dialogue with pupils in order to educate them to protect themselves.

As a parent/carer we hope you will help us in our duty to protect all our pupils. If we need to speak to you and your child about substance misuse nobody within our school will judge you, or accuse you, we simply need to discuss the facts and decide whether your family may need some extra help.

Within this leaflet we have outlined some of the standard procedures that staff **MUST** follow.

When school/setting staff have concerns for a child, the Headteacher will usually discuss this with the parent/carer, but in some circumstances this will not be possible and Police or Social Services may be called instead.

The pupil's safety is our primary concern and information may be shared with other agencies if we feel a pupil is at risk.

**Staff will:**

Assess if there is a medical emergency. Contact the Headteacher or Designated Senior Person for Child Protection (CP) without delay.

Seize and retain the substance concerned and transfer it to the Headteacher or CP Designate.

Make early decisions around contacting parents/carers or other agencies.

Ensure that written records are maintained of any incidents.

Have discussions with pupils and their parents/carers around support available.

**Staff will not:**

Focus on the disciplinary aspect of substance misuse on school/setting premises.

Behave in an accusatory manner towards the pupil.

Ask questions that may interfere with a possible criminal investigation.

Discuss the allegation other than with designated staff.

Promise to keep secrets.

None of these procedures are aimed at upsetting or distressing you as parents/carers. They are designed to address at your child's needs.

The Headteacher will **not** ask parent/carers before calling Social Services if:

The parent/carer knew of the concerns and did not protect the child

The parent/carer is the cause of concern

The parent/carer would not be able to discuss the concern

As a parent/carer, you play a vital role in the life of the school, especially when it comes to ensuring all our pupils are safeguarded and protected. As a school/setting we ask that you as parents/carers:

Talk to your children about risk taking behaviour and keeping safe.

Talk to staff about any concerns you have for your child

Remember that the school **MUST** share concerns about your child

The school/setting will **NOT** judge you, but they may have to share difficult information

The school/setting **MUST** prioritise the safety and well being of pupils, they cannot keep secrets from other agencies.

## Appendix 6 – Pupil Guidance on Substance Misuse Activity in School/ Setting

### School Core Aims:

To be proactive in tackling substance misuse within the school.

To provide a curriculum that will educate pupils regarding all aspects of substance misuse education.

To utilise all local services to support pupils where needed.

Please can all pupils report to a member of staff immediately, if;

Any substance/paraphernalia is found on school premises.

Any pupil who seems under the influence and needs immediate assistance.

For further support and general advice please feel free to speak to the schools designated officer:

Mr N Penn (Headteacher)
